Emiliana Escobar Zambrana

Enthusiastic collaborator and eager growth seeker as a Full-Stack Developer. Always approaching challenges with enthusiasm and a proactive mindset. My deep passion for innovation and problem-solving drives me to deliver impactful contributions and achieve significant results.

EDUCATION & TRAINING

Full-stack Java - School of Applied Technology </salt>
2024
Intensive three-month training program for full-stack web development with a focus on TDD, mob programming, and applied learning. Acquired solid foundation in Java and frameworks such as Spring and NextJS. Hands-on experience utilizing Docker, GitHub Actions, and cloud computing (Azure).

Frontend Web Development - Coder House
2022 -2023
Completed a Front-end Developer course, covering HTML, CSS, Bootstrap, JavaScript and React. Developed the skills needed to build dynamic and responsive websites interfaces, latest tools and technologies. Learned to create interactive user manipulate the DOM, and build single-page applications with React. Gained hands-on experience in creating responsive websites and web applications and collaborated with other developers using Git and GitHub.

Professional Nurse – Hospital of Buenos Aires
2015 - 2017
Provided comprehensive nursing care in various hospital settings, including emergency and minimal care departments. Gained experience in medication management, surgical material handling, and collaborative patient care. Known for delivering holistic patient care and efficient medication dispensing.

Pharmacy Technician – John F. Kennedy University Argentina
 2011 - 2013
Trained in medication dispensing, prescription processing, and patient counseling. Developed skills in inventory control, insurance claims processing, and team leadership. Supervised and trained new staff, ensuring compliance with healthcare standards.

WORK EXPERIENCE

Full Stack Java Developer - School of Applied Technology </salt>
2024 March – Present (Stockholm, Sweden) - Hybrid
Developer full-stack applications in Java, utilizing frameworks such as Spring to design and implement scalable backend services and dynamic frontends.

Cashier Customer Service – Zara SA
2021 - 2024 (Stockholm, Sweden)
My work involves providing the best customer service experience by paying attention to detail to display products at their best, being committed to increasing sales by offering thoughtful consideration and support to customers, and finding the best solutions and providing alternatives when needed. As a cashier, I ensure that customers have found everything they need, answer any remaining questions, and leave with a positive impression.

Pharmacy Technician – Farmacity
2013 - 2018 (Buenos Aires, Argentina)
Completed a role as Vaccination Manager, leading a team in vaccine administration and patient management. Handled medication dispensing, prescription processing, and patient counseling. Managed inventory control and processed insurance claims. Trained and supervised new staff, ensuring adherence to pharmacy protocols.

Professional Nurse – Hospital Manuel Belgrano
2012 - 2014 (Buenos Aires, Argentina)
Completed work in various settings, including minimal care and emergency services. Specialized in medication management, preparation, and dispensing, developing collaborative skills and managing surgical materials. Focused on providing holistic care and efficient medication delivery to enhance patient well-being.
